Savings on Childcare

Did you know that you can make real savings on your childcare costs with Employers For Childcare Vouchers?

Childcare vouchers are a valid way for all working parents, both mums and dads to save money on registered childcare for children up to the age of 15, or 16 if registered disabled.

Employers For Childcare Vouchers are accepted by Willowbank Daycare Nursery and will help parents save money on the cost of childcare.

Working parents can each save up to £77 per month through exemption from tax and National Insurance Contributions. Childcare vouchers are different from tax credits and are not means tested.

Both mums and dads are eligible for childcare vouchers regardless of family income. If your employer offers the scheme, you can opt to receive up to £243 per month* in childcare vouchers. This amount is exempt from tax and National Insurance contributions - a saving of £77 per month for a basic rate taxpayer. Each parent can save just under £1,000 per year on registered childcare.
